Infor10—Redefining Business Software

Infor10 marks the debut of an entirely new category of business software, conceived from today's flexible open standards and delivered through an agile, unbreakable architecture that gives customers the speed, freedom, and power they've always wanted—but couldn't get until now.

With Infor10, we're reimagining business software to change the way work is done in the industries we serve. We're building industry suites that deliver maximum value quickly, with features tailored to the specific needs of each industry. By creating revolutionary lightweight middleware technology, and new ways to implement and integrate business software, Infor helps companies leap over traditional application boundaries to improve performance and streamline workflow.
